

INNOVA Capabilities

COMPANY OVERVIEW

INNOVA is a full-service, multi-disciplinary architecture and engineering (A-E) firm comprised of experienced design professionals servicing municipal, state, and federal agencies across the United States. We take great pride in delivering responsive service in an effective and efficient manner to our clients.

INNOVA's multi-disciplinary staff of 19 has a long track-record of working with our valued team of subconsultants on A-E IDIQ Task Order contracts and Design-Build projects. We are dedicated and ready to meet any design challenge.

GOVERNMENT EXPERIENCE

INNOVA specializes in design and engineering services for the Department of Defense and other Federal Government facilities. Over the past 30 years, our project list represents a combined construction value of over \$3 billion, including successfully teaming with General Contractors on Design-Build RFP's valued at over \$445 Million over the last ten (10) years.

Our ability to manage multiple projects concurrently, completing them on schedule and within budgets has earned us client loyalty, as demonstrated by repeated contract awards over decades. Since 2001, we have provided A-E services to the U.S. Army Family Morale Welfare and Recreation Command on 35 projects at 19 installations in twelve states, with a construction value of over \$500M.

Architectural & Interior Design

Arctic Design
Building Envelope Design
Building Master Planning
Furnishings, Fixtures & Equipment (FFE)
Comprehensive Interior Design (CID)
Structural Interior Design (SID)
Historic Renovation
Life Safety Code Analysis
Signage & Way-Finding
Space Planning
Space Utilization Studies

Civil Engineering

Low Impact Development
Storm Water Management
Site Utility Planning

Structural Engineering

Anti-Terrorism/Force Protection (AT/FP)
Progressive Collapse Design
Seismic Analysis
Seismic Retrofit Design

Additional Services

Cost Estimating
Design-Build RFP Development (Title 2)
Design-Build Services
Design Standard Formulation
Energy Conservation
Energy Assessment
Feasibility Studies
Project Validation Assessments
Requirements Analysis
Sustainable Design (LEED)

Capabilities

Building Information Modeling (BIM)
Construction Administration & Bid Support
Facility and Land Use Master Planning
Fast-Track Project Design
Programming
Project Permitting
Schematic Design through Construction Documents

Contract Types

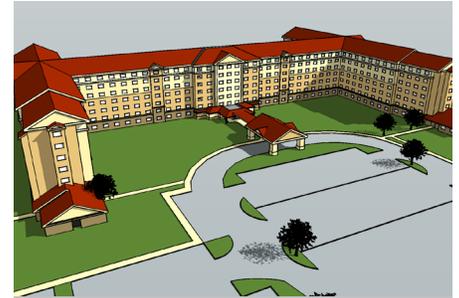

A-E IDIQ Contract
D-B (Design-Build) Contract
JOC (Job Order Contract)
MACC (Multiple Award Construction Contract)
